LOST VITAL SPARK

BIOGRAPHY

Lost Vital Spark is a melodic death metal band from Linz, Austria, blending classic melo-death roots with modern intensity.

Fast, aggressive riffing, dynamic tempo shifts, complex arrangements and memorable songwriting define a sound that is both technically demanding and immediately direct. Since 2004, the same five musicians have developed that identity together, turning longevity into precision, chemistry and unmistakable character.

With *The Motion Paradox*, Lost Vital Spark delivers its most focused and ambitious material yet: relentless without sacrificing melody, progressive without losing impact, and modern without abandoning the genre's foundations.
